

Value residential property intelligently

Make sure you are experiencing the full benefits of the GetRentr platform:

Exact property licensing determination

Quickly understand all legislation requirements, and all associated schemes with their individual limits and expiry.

Scenario analysis of occupancy

See how your property licensing requirements change as its occupancy changes.

Article 4 planning designations

Determine article 4 planning restrictions (C3 to C4 conversions).

Licence registers

Determine whether your property already has a licence in place in an instant.
